

Riznate

Biological seed and seed
trench inoculant
specifically designed for
legumes

RizNate™ is a biological seed treatment developed to prime the seed and speed up the germination and emergence timeline. This proprietary technology is powered by probiotic microbes that maximizes the genetics of a seed to ensure proper seedling vigor and uniform growth. There isn't a product on the market that contains the unique combination of microorganisms. Gains of 5-10% are common for producers using RizNatee, depending on local variables.

Usage Information

Compatibility: stand alone

Use Rate: 4 oz. per acre

Timing: seed treatment

Genesis **AG**

RizNate™

genesis **AG**

NET WEIGHT: 2.5 gallons (9.46 L) | 20.85 lbs. (9.45 kg)

Guaranteed Analysis:

Soil Amending Ingredients	36.0%
Azotobacter vinelandii	300 cfu/ml
Clostridium pasteurianum	300 cfu/ml
Mycorrhizae	300 cfu/ml
Bradyrhizobium sp.	300 cfu/ml
Total Other Ingredients	64.0%

Purpose: To enhance nutrient uptake
FOO2403
WEIGHT PER GALLON: 8.34 lbs. @ 68° F

**RizNate contains live microorganisms.
Content can change subject to storage time and conditions.

CROPS: As a seed inoculant; soybeans and wheat. Seed trench inoculants: Can be used on row crops and vegetables.

APPLICATION RATES: As a seed treatment on soybeans: 3 ounces per unit or 120 ounces per 40 units OR 150 ounces per 50 units. As a seed treatment on wheat: target 8 ounces per acre seed. Seed trench inoculants: 8 ounces per acre

STORAGE: Contains living organisms. Store above 45° F and below 120° F out of direct sunlight and in a dry place. Improper handling or storage will destroy the microbial organisms. Lot number and expiry date can be found on this package.

PRODUCT VIABILITY: After proper application onto seed, RizNate™ remains viable up to six (6) months. Longer periods are possible depending on storage conditions but could result in lower CFU populations. RizNate™ that is properly stored and unopened is viable for two (2) years from the date of manufacture.

WARNING: Do not violently agitate as it will damage the microbial membranes.

MIXING INSTRUCTIONS:
SHAKE WELL. DO NOT VIOLENTLY AGITATE AS IT WILL DAMAGE THE MICROBIAL MEMBRANES.
WORKS WELL WITH ALL TYPES OF COMMERCIAL SEED TREATING EQUIPMENT.

CONDITIONS OF SALES: Genesis Ag warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on the label when used in accordance with directions under normal use conditions. Crop injury, product use ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of seller. In no case shall Genesis Ag or its distributors be liable for consequential, special or indirect damages resulting from the use, handling, or shipping of this product. All such risk shall be assumed by the buyer/end user. Genesis Ag makes no warranties of merchantability or fitness for a particular purpose nor any other express or implied warranty except as stated above. Information about this lot of fertilizer can be obtained by writing to Genesis Ag at the address on this package.

CAUTION: KEEP OUT OF REACH OF CHILDREN.

About RizNate™

RizNate is a biological seed and seed trench inoculant specifically designed for legumes.

In addition to nodulating bacteria, RizNate's formula includes free-living nitrogen fixing bacteria and several species of mycorrhizal fungi. The fungi and bacteria create a symbiotic relationship with the plant. This has been shown to enhance nutrient uptake, drought resistance, and defense responses.

RIZNATE CAN HELP MAXIMIZE THE EFFICIENCY OF YOUR FERTILITY PROGRAM

- A healthy start for seeds
- Establishes healthy growing environment around seeds
- Enhance fertilizer efficiency
- Help speed up the germination and emergence timeline
